Fund of \$200,000 was requested to pay part of a Transmission Electron Microscope (TEM) which costs about \$1.35 million. The balance comes from various other sources. The machine has been scheduled for delivery in March 2001.

The items paid by this grant are listed as 2, 7 – 12, and 17 in Jeol's quote. The total cost was \$210,205. There was a discount of \$10,205 so the final cost was \$200,000.

The TEM will be used to assist all the research projects described in the original proposal and any other future DoD funded projects.
